Thereafter, if not satisfied with the results of the trial period, MDTA shall have the sole discretion to modify or carry out its original intended contracting out. ARTICLE III.1 LABOR-MANAGEMENT COMMITTEE

There shall be a Labor-management Committee consisting of members designated by the Union and the MDTA Director. The Committee shall consist of seven (7) representatives of the Union and seven (7) representatives of management.

The Labor-management Committee shall meet on a monthly basis or at other times by mutual consent. These meetings shall be held during working hours, without loss of pay to Union representatives, who are not on leave of absence under Article III.2 hereof. Committee members who attend these meetings will not be required to report to their regular assignments that day. Committee members who are off-duty on the day Labor Management meeting is held, will receive an alternate day off not later than the end of the pay period subsequent to the one in which the meeting was held.

The purpose of these meetings will be to discuss subjects of mutual concern and interest. The meetings should aim to solve or avoid problems, build mutual trust and respect, and improve communications and employee morale. The Labor-management Committee shall have as its specific mission to:

- 1) Identify cost savings system-wide.
- 2) Evaluate all work before it is contracted out to insure we do not have the capabilities of performing the work in-house. This evaluation process shall not exceed thirty (30) calendar days. Emergency requests as defined in Article II (d) may be acted upon immediately by MDTA.
- 3) Develop an attendance improvement plan.
- 4) Other problems of mutual concern.

Each party will exchange an agenda of topics to be discussed at least five (5) calendar days prior to the scheduled meeting. Only subjects appearing on the agenda will be discussed unless business of an emergency nature is added by mutual consent.

The discussion of subjects under dispute through a formal grievance will be excluded, and will be handled as set forth in the parties' grievance and arbitration process.

Within the authority of the representatives, both parties will make every effort to implement any agreement or plan which results from these meetings. If unable to implement, the representatives will make appropriate recommendations to the County Manager or his assistant assigned to oversee MDTA.

ARTICLE III.2 AUTHORIZED LEAVE FOR UNION ACTIVITY

- A. Leave of absence without pay may be granted to a permanent employee for the purpose of accepting a position with the Union representing the employees of MDTA. Full-time union officials granted

an extended leave of absence shall be considered in pay status for Longevity Bonus Award purposes, as provided in Article VII.2B herein. This shall apply retroactively.

- B. **Employees Conducting Union Business** - Except for full-time Union officials granted an extended leave of absence, employees given time off to conduct Union business will be considered in pay status, provided the Union verifies in writing the names, dates and hours for such persons and reimburses MDTA for all salaries paid, plus 20% administrative costs.

Daily Overtime - If an employee is booked off for TWU business for the entire day, the employee will be paid his regular day's pay which will then be billed to the union (with 20% administrative costs).

If an employee, who has a five day work week, is booked off for TWU business for part of the day and then works beyond the eighth hour (those with a four day work week the 10th hour), the overtime premium will be paid by the party for whom the employee is working the overtime.

Weekly Overtime - If an employee conducts union business on his off-day, then MDTA will make no payment, nor charge TWU for this time.

If an employee performs his job duties on his off-day, and earns premium pay by doing so, then MDTA shall pay the overtime premium, regardless of whether the employee has booked off for TWU during his regular days on.

Contract Negotiations - MDTA shall pay for up to seven (7) bargaining unit members (other than the chief shop stewards) to attend labor contract negotiating sessions. Employees will be paid for time in attendance at the meetings, plus appropriate travel time if they are traveling from or returning to work before or after the meeting.

- C. **Union Time Pool** - Each Bargaining Unit employee shall be allowed to voluntarily contribute to the pool, at the end of their leave year prior to conversion, one of the first six days of unused sick leave earned during the leave year. Employees who have used the first six days of sick leave during their leave year may contribute a day of earned annual leave. Employees shall also be allowed to voluntarily contribute all annual leave in excess of the maximum accrual. Each day contributed to the pool will be converted to the equivalent dollar value based on an employee's end of leave year base hourly pay rate.

The time in the pool may be utilized by elected and appointed officials of the Union, (excluding the President), and other bargaining unit employees designated by the Union President. When a day is used by a bus operator or train operator their regular run will be paid. All other bargaining unit employees, who have a five day work week, will be paid for eight (8) hours for each full day used, (ten (10) hours for those with a four day work week). If the number of hours used by an employee is less than a full day, the charge to the Union Time Pool will be on an hour for hour basis.

Each employee who wishes to donate time to the Union Time Pool will use a Time Pool donation form which will be provided by MDTA. This form shall include language releasing MDTA and/or Dade County from any and all liability to pay for any time contributed by the employee to the Union Time Pool. All requests for payments to be made from the Union Time Pool shall be made

on the forms provided by MDTA. Such forms shall be signed by the bargaining unit employee and the Union President or his designee.

Employees shall be released from duty for Union pool time only if the needs of MDTA permit but such release shall not be unreasonably denied. If MDTA determines an employee cannot be released at the time desired, the Union may request an alternate employee be released from duty during the desired time. All applicable rules, regulations and orders shall apply to any person on Union Time Pool release. Violation of such rules shall subject the employee to the regular disciplinary process. When reporting an employee's absence as a result of utilizing the Union Time Pool, the attendance record shall reflect: Union Activity (Y).

Any injury received or any accident incurred by an employee whose time is being paid for by the Union Time Pool, or while engaged in activities paid for by the Union Time Pool, shall not be considered to have sustained an on-the-job injury, nor shall such injury or accident be considered to have been incurred in the course or scope of his employment by MDTA or Dade County, within the meaning of Chapter 440, Florida Statutes as amended.

MDTA and/or Dade County reserves the right to rescind the provisions of this Article in the event any portion of the Article is found to be illegal.

The Union agrees to indemnify and hold MDTA and the County harmless against any and all claims, suits, orders, or judgments brought or issued against MDTA or the County as a result of any action taken or not taken by the County or MDTA under the provisions of this Article.

This Article shall not be subject to the grievance and arbitration provisions of this Agreement.

ARTICLE V.24 LINE-UPS

There shall be at least two (2) line-ups annually. One of these will be a general line-up in December and one will be a divisional line-up in June, with such additional line-ups as MDTA deems necessary to meet current work requirements. If at anytime after twenty-one (21) calendar days an employee's work is judged unsatisfactory by MDTA such employee may be reassigned within classification and shift. Each pick assignment shall remain in effect for the duration of the line-up. Before any line-up shall be posted, the union shall be granted the opportunity to review same up to ten (10) days prior to posting and to make pertinent comments and suggestions. After the posting of the line-up for fifteen (15) days, the picking will then be started by classification seniority in groups. A maximum of three (3) days shall be allowed for picking. Picking shall be finished at least three (3) weeks prior to effective date of line-up. The effective date shall be included on the posted line-up. The new line-up will go into effect on that date.

In the event there is disagreement between the Union and management concerning all, or any part, of said line-up the dispute shall not prevent the line-up from becoming effective as scheduled but shall be treated as a grievance and settled accordingly.

MDTA shall post a list of all available picks as to primary assignment, facility location, working hours and days off, except that "Relief Assignments" may be posted on line-ups for all classifications. The number will be limited to a maximum of 10% of all positions for Bus Maintenance, Facilities, and Stores. MDTA reserves the right to have employees perform duties other than the primary assignment based on operational needs, the availability of work, and the availability of experienced employees to do the work, as determined solely by MDTA management, provided this determination is not exercised in an unreasonable and arbitrary manner.

Movement between divisions, if needed for relief on an extended basis, will be as in ARTICLE V.26, or on a voluntary basis and in reverse order of seniority if no volunteers are available. Employees shall be notified as to the time and place they are scheduled and expected to appear.

However, if an employee cannot attend he will be expected to leave with his supervisor a list of at least five (5) choices in order of preference. Any employee who fails to provide a list of choices will be assigned duty as similar as possible to the one chosen at the last previous line-up. If an employee cannot pick in person because of an emergency, such employee shall be allowed to advise the office of his preferences by telephone.

Employees who are absent on the day a line-up is posted and have not returned by the third day after posting, shall be sent a notice of the date picking of the line-up will begin. This will be done by certified mail. Employees in a non-pay status on indefinite absence or leave at the time of a line-up will be allowed to pick.

Transfer Between Locations - Employees may be transferred from one facility to another between line-ups and thereafter shall work on a regular basis at the new facility. Volunteers will first be requested from employees in the classification involved. Existing vacancies, after using volunteers, will be filled by assigning employees in that classification in reverse seniority order. First preference for open jobs between line-ups will be given to the most senior employee within the classification, who requests the opening. An employee may make only one such change between line-ups.

MDTA shall be able to post for bidding a maximum of 50% of all positions as four day work weeks at 10 hours per day. Employees assigned to this schedule will receive at least two (2) consecutive days off.

ARTICLE V.25 VACATION SELECTION

Vacation schedules shall be selected at each facility by classification seniority between November 15 and January 15. All vacations are subject to approval by MDTA.

ARTICLE V.26 REASSIGNMENTS AND OPEN WORK

- A. **Emergency Assignment** — In the event of an emergency, as determined by the Superintendent, employees may be reassigned for up to seven (7) calendar days. If during the above seven days the Superintendent determines that a temporary adjustment is needed in work assignments, then temporary reassignment procedures shall apply. An emergency shall be as defined in ARTICLE II.
- B. **Temporary Reassignment** — In the event a temporary reassignment of work is necessary as determined by the Superintendent, employee may be reassigned for up to fourteen (14) calendar days. Temporary reassignments, after using volunteers, will be filled by assigning employees in that classification in reverse seniority order. After consultation with the shop steward, temporary reassignments may be continued for a length of time mutually agreed upon. If during this time MDTA determines that a permanent adjustment is needed in work assignments, MDTA will post the open work for bids. The temporary reassignments shall be continued until the new bid is effective.
- C. **Open Work** — When MDTA decides that open work shall be posted for bids, any employee in the classification will have the right to exercise his seniority to bid on such open work. If at anytime after twenty-one (21) days an employee's work is judged unsatisfactory by MDTA, such employee may be reassigned within classification and shift.

ARTICLE V.27 BUS MAINTENANCE, FACILITIES, AND STORES TRAINING PROGRAM

MDTA and the union agree that the training and development of employees within this bargaining unit is mutually beneficial, and that the MDTA will encourage and assist employees in upgrading themselves and qualifying for a promotion.

To achieve the mutual objective of qualifying bargaining unit employees for upward mobility within the transportation field, the parties agree to meet at the request of either party for the purpose of exchanging information concerning the overall training of employee within the unit. The union will make recommendations to the County relative to the training program(s) and the County will consider the same.

ARTICLE V.28 TRANSIT RADIOS

The Operating Instructions for the Transit Mobile Radio System are a part of the rules and regulations of MDTA. Any employee violating these rules or other misuse of the radio system will be subject to disciplinary action.

ARTICLE V.29 OVERTIME EQUALIZATION

Giving consideration to classification, shift, and work area, MDTA shall offer any overtime work deemed necessary as equally as possible to all employees.

Overtime shall be distributed on a rotating basis, beginning with the senior employee with the lowest cumulative total hours. Cumulative totals will be reset each line-up. Regular work schedules will not be changed solely to avoid the payment of overtime.

ARTICLE V.30 SUPERVISORS

Supervisors and non-bargaining unit employees shall not perform any duties that are duties normally assigned to bargaining unit employees except in case of an emergency as defined in Article II (d).

ARTICLE V.31 BUS TECHNICIAN

- (1) All current Bus Mechanics I and 2 and Bus Body Mechanic Painters I and 2 with permanent status shall be eligible for Bus Technician Training. To qualify for training, employees must pass a general mechanical knowledge test administered by the County. Their assignment to training slots shall be based upon classification series seniority. For the purpose of this article, classification series seniority shall be defined as employment in one or any combination of the following classifications: Bus Mechanic Helper (8004), Bus Mechanic I (8005), Bus Mechanic 2 (8006), Bus Body Mechanic-Painter Helper (8008), Bus Body Mechanic-Painter I (8009), and Bus Body Mechanic-Painter 2 (8010). Bargaining unit seniority shall be used to break ties between employees.
- (2) While in training, employees shall be eligible for the applicable negotiated wage increases contained in this Agreement and merit or longevity pay increases to which they may have otherwise been eligible.
- (3) Training will be arranged by MDTA and provided on County time. Training will last approximately four hours each day and employees will be expected to perform mechanic duties for the balance of their eight hour shifts.
- (4) The parties recognize and agree that changes to picked assignments will have to be made to support the classroom schedule and meet operational demands. Therefore, whenever employees are

scheduled to attend training, regardless of the original shift, days off or work location picked, employees will be assigned to attend class at a predetermined location and at a time established by management. The duties to be performed for the balance of each eight hour shift shall be assigned by management.

- (5) Upon successful completion of training, as defined solely by MDTA management, the qualifying incumbents shall be appointed to budgeted, vacant positions and commence serving the required one-year probationary period. Employees appointed to probationary status as a bus technician shall be eligible to receive the appropriate promotional pay increase in accordance with Metro-Dade County standard promotional procedures.
- (6) MDTA will fill a total of forty-five (45) Bus Technician positions as soon as practicable but no later than September 30, 2002.
- (7) These provisions shall be the sole method by which an employee may be appointed to or compensated as a Bus Technician.

ARTICLE VI - BUS OPERATORS - WORKING PROCEDURES

ARTICLE VI.1 OPERATOR'S RESPONSIBILITY

It shall be the responsibility of the operator to devote full attention to the safe, smooth and efficient operation of equipment and to avoid discomfort or inconvenience to the passengers. Subject to orders of persons of higher authority, the operator has charge of the bus and shall be responsible for:

- (a) Adherence to route, schedules and time points.
- (b) Knowledge and observance of traffic laws and safety regulations.
- (c) The safety of boarding and alighting passengers.
- (d) The collection, registration and proper accounting of all fares as required.
- (e) Proper display of all required signs and identifications.
- (f) The adjustment of lighting, heating, ventilation and cooling for the comfort of passengers.
- (g) Distribution of route finders and other transit informational publications on buses as directed by M.D.T.A.
- (h) Performance of such other duties as may from time to time be prescribed by M.D.T.A.

An operator may grieve any unreasonable order by a higher authority under these provisions.

ARTICLE VI.2 LINE-UPS AND RUNS

Line-ups and Runs shall be governed in accordance with the following procedures:

- (a) M.D.T.A. will provide for at least one (1) general line-up each year. This line-up shall be effective in November. M.D.T.A. will provide for at least two more line-ups per year. Unless necessitated by service adjustments and/or other operational requirements these line-ups will be divisional line-ups. One will be effective in April; the other will be effective in July. Additional line-ups may be scheduled as deemed necessary by M.D.T.A.

The November pick shall determine facility locations and vacation schedules as well as work assignments. If the July line-up is a re-pick of an existing line-up, the fourteen (14) calendar day Union review and posting will run concurrently and the picking will be done during a fourteen (14) calendar day period on a divisional basis.

- (b) **Transfer Between Locations** - Operators may be transferred from one facility to another between line-ups and thereafter shall work on a regular basis at the new facility. Volunteers will first be requested. Existing vacancies, after using volunteers, will be filled by assigning extra board men in

reverse seniority order. Employees being permanently transferred will be given 48 hours prior notice.

Temporary transfers of extra board men can be implemented by M.D.T.A. between facilities in one week increments.

Operators may volunteer to be assigned work at any location on a daily basis if there is a shortage of operators at another location.

If voluntary assignment to another location is made after an employee reports for work at his normal location, reasonable travel time will be paid if applicable.

Transfer Work - Operators shall be required to work any work that is normally assigned to another division subject to the following procedures: Volunteers will be requested first from among extra board and extra list operators. Failing this, reverse seniority assignments will be made from the extra board for that operating day.

- (c) **Unfilled Work Assignments** - Unfilled work assignments or emergency reliefs will be assigned first to any available extra board operator during his normal work hours, next to an extra list operator, then to any available operator. Part-time operators will not be used unless all regular bus operators have been given an opportunity to operate said service.
- (d) **Special Services** - With regard to special services or events (Park-Ride), M.D.T.A. will post a notice requesting operators to sign up for these services for a period of time as stated on the notice. Each division will then post this list in seniority order, which will apply for the first event. After the first event the list will rotate on an established basis. The Charter Service for these events will also be operated from this list.

M.D.T.A. shall attempt to secure sufficient operators to fill such needs on a voluntary basis, however back-to-back events (events occurring on consecutive days) will be treated as a single event and the list rotated after the last event involved. If, within 48 hours of the event, the M.D.T.A. has not secured sufficient operators, M.D.T.A. shall have the right to call in operators scheduled to be off duty on that day in reverse seniority order.

- (e) **Charter** - The assignment of charter work shall be governed by the following procedures: (Except as indicated in ARTICLE VI.2 (d)).
 - (1) Charters of a short duration (four hours or less) when determined by the Dispatcher shall be tied in with other work so as to coordinate the starting time and location of charters with the availability of operators and buses.
 - (2) Charter work may be assigned to Regular Operators on their regular work days only when Extra Board Operators are not available. On their days off, Regular and Extra Board Operators will be treated equally as to charter assignments on a first come first served basis.
- (f) **Seniority Roster** - Seniority order for purpose of line-up within the classification bus operator shall be determined solely upon length of continuous employment with M.D.T.A. in that classification.

Such service shall be computed from date of employment and roster shall be kept which shall list the name of each operator in order of this date of employment and his line-up number assigned in accordance with his position on the roster. The number so assigned shall be used to determine the order in which he shall be accorded an opportunity to select the assignment of his choice.

Nothing in this rule shall be inferred, considered or construed as granting seniority rights to former employees of any predecessor companies which may in the future be acquired by M.D.T.A. nor shall it change the line-up seniority list then in effect upon adoption of this procedure.

- (g) **Union Review of Line-up Prior to Posting** - Before any line-up shall be posted, the executive committee of the Union shall be granted the opportunity to review same at least fourteen (14) calendar days prior to posting. Such line-up shall be complete and include the following per division:

- Preliminary Schedule Cards for Trippers and Express Routes.
- Manpower hours.
- Split runs.
- Straight runs.
- Open work.
- *Estimated* extra board list (including A.M. report times & P.M. time slots).
- *Estimated* number of part-timers.
- Travel time sheets.
- Rotary

When the computer is in full operation preliminary dispatch sheets and run sheets will be furnished. Any pertinent comments or suggestions by the Union for changes in the next line-up should be made thirty (30) days after the effective date of the existing line-up (15 days for unscheduled line-up). Between 30-45 days after input from the Union, another meeting with the Union and Planning and Scheduling personnel will be held. In the event there is disagreement between the union and management concerning all, or any part, of said line-up, the dispute shall not prevent the line-up from becoming effective as scheduled but shall be treated as a grievance and settled accordingly. If an error by management occurs in the Operator line-up that could not be detected by the union, from such line-up, which necessitates a second pick by an Operator, such Operator shall be paid for actual time lost as a result of being relieved from this run.

- (h) **Posting of Runs** - M.D.T.A. shall post a list of the runs which shall include the amount of daily fringe time for each run, (except for swing-runs which will be shown as a total fringe for the week). All Operators shall be notified as to the time and place of a line-up and shall be expected to appear as scheduled; provided, however, that in the event an operator cannot attend, he shall be permitted to leave with the dispatcher on duty a list of choices in order of preference. Employees who are absent on the day a line-up is posted and have not returned by the fifth day after posting, shall be sent a notice of the date picking of the line-up will begin. This will be done by certified mail, within seven days of posting.

Buses will be assigned to runs after the line-up is picked. Rotation of buses for equalization of mileage and other considerations deemed necessary by M.D.T.A. will be done at their discretion.

The Union will be notified of major rotations, however, buses held in to be serviced will not be included in such notification.

- (i) **Operator's Responsibility** - At line-ups it shall be the responsibility of each operator to thoroughly study the line-up particularly just prior to his group's designated picking time, and narrow down his choice of runs and off days.

The object is to facilitate the pick. Each operator will be allowed a maximum of ten (10) minutes to make his selection. After ten (10) minutes the next operator will be called. The operator who required more than ten (10) minutes will still be able to pick when he makes his choice, however, his seniority position will have been relinquished for that pick.

- (j) **Operator to Provide a List of Choices** - Any operator who fails to provide a list of choices will be assigned a run as nearly similar as possible to the one chosen at the last previous line-up.

Any operator who has missed the last half of a current line-up for medical reasons or leave of absence shall not be allowed to pick. If there is a projection of a return to work (by the doctor in the case of medical leave) prior to the expiration of the first one third of the new line-up, the operator will be allowed to pick or will be assigned. Operators returning to duty who were not allowed to pick pursuant to the conditions set forth above shall make a temporary pick from the open runs or take his/her position on the Extra Board until the next line-up. In this instance, payment will be based on the highest run the operator could have picked during the line-up. In the case of the returning operator who works the Extra Board, payment will be based on the highest run the operator could have picked or the actual hours worked, whichever is higher.

- (k) **Line-up Assignments to Remain Posted** - The new line-up assignment shall remain posted for the duration of said line-up, protected by a clear covering.

- (l) **Procedure For Changing Selection and Exceptions** - Any run or piece of work that is selected in the proper manner shall not be changed after it has been selected unless there is prior discussion with a least two Union officials. If either side suggests, this should include a check of the running time by representation of M.D.T.A. and the Union, in an effort to reach agreement. If adversely affected, the operator shall also be consulted prior to the change. However, adjustments may be made in schedule to improve service or operating conditions for the operator with prior notice to the operator and the Union. The following exceptions to this procedure are hereby established:

- (1) A list of up to thirty-five (35) A.M. and thirty five (35) P.M. trippers and open pieces may be offered to regular operators in addition to their regular run selection.
- (2) Such trippers and open pieces may be changed, eliminated or discontinued by M.D.T.A.
- (3) In the event the A.M. or P.M. tripper or open piece of work selected by the regular operator is no longer available, an alternate tripper or open piece of work, which approximates the original selection in terms of pay time, will be offered as a substitute.
- (4) In the event an operator picks an open piece of work which precedes or follows the run he has picked and he is "relieving himself," the run and open piece will be combined and no

travel time will be paid to or from the garage so long as he works the run and open piece, except as provided herein. If he no longer works the open piece or if the open piece is returned to the extra board for any reason, travel time will be paid whenever the two pieces are worked separately. If the operator does not bring the bus to the garage at the end of his second piece of work, applicable travel time will be paid. A bus operator picking a tripper or open piece of work, in addition to his run, on which the wait and travel times exceed the intervening time between the two pieces of work, such operator will be paid the actual wait and travel time between the two relief points based on the last available bus taking him to the point where he picks up the second piece of work.

- (5) Bus operators shall not be paid for the tripper or open piece when on any type of leave or when the tripper or open piece is not worked. Except when such bus operators are assigned by M.D.T.A. or a breakdown occurs, which in either case causes the bus operator to be unable to complete this tripper assignment, he will still be paid for said tripper. If tripper is not run because of an equipment shortage, the bus operator will be paid for the tripper or two hours at applicable rate of pay (whichever is less).
- (6) Being late for the tripper or open piece will not cause the operator to lose his regular run.
- (7) If the operator is late for the tripper or open piece more than three (3) times during the line-up, the tripper may be taken from him. No other penalty will be assessed for lateness on these trippers.
- (m) Restroom Facilities - Wherever possible M.D.T.A. shall make arrangements for restroom facilities for operators at the end of each route.
- (n) Regular Runs - A regular run shall be defined as regular work chosen at line-up or assigned as provided in these rules. Regular runs shall include straight runs and split runs. A straight run includes continuous work from the time the operator reports until he is relieved or returns to the garage.

A split run consists of two parts and each part may be on a different route. On split runs, intervening time in excess of 90 minutes will be paid at straight time. The minimum unpaid intervening time will be 30 minutes.

Wait and travel on a split run where each part is on a different route will be based on last available bus plus wait time at relief point for next bus.

Eighty (80) per cent of the regular runs shall be straight runs and twenty (20) per cent may be splits.

- (o) Combination Runs - It is the expressed intent of the parties to develop additional work schedule procedures which will result in pre-assigning as much work as practical on a daily or weekly basis.

M.D.T.A. will develop, in addition to the regular runs heretofore described, a group of Combination Runs. These runs shall be scheduled and paid as follows:

Runs shall include fifteen (15) minutes bus preparation time for each piece of work comprising the combination plus a maximum of eight and one-half (8 ½) platform hours within a total elapsed time of twelve hours.

Work beyond the twelfth hour will be at overtime in all cases.

When platform time within the 12 hour spread exceeds 8 hours, daily overtime guarantee applies. Pay for combination runs will be a minimum of 45 hours of pay at straight time rate. For example, the pay for a week could be made up of the following:

(1) 41.25 hours of work time
2.50 hours of report time
1.25 hours overtime premium pay
45.00 hours at straight time rate

(2) 37.00 hours of work time
2.50 hours of report time
5.50 hours of paid unassigned time
45.00 hours at straight time rate.

Should an operator with paid unassigned time in his daily work schedule desire to work during the intervening period of his combination run, overtime or added pay will begin after paid unassigned time for that day is made up by work time. Any work performed at either end of the combination run will come under the daily overtime provision of this Agreement.

If an operator with a combination run, which has paid unassigned time, works an assignment which is authorized by the Dispatcher, a Supervisor or Starter during his intervening period, payment for such work will be above his run pay at the applicable rate of pay. If an operator is late returning to the garage at the end of his combination, he shall be paid above his run pay at the applicable rate of pay.

(p) Run Cancellation - Any operator holding a regular run who reports as scheduled in proper attire and condition to work but whose work has been canceled shall be paid no less than full pay for the assigned run and shall hold himself available for other assignments during the time for which is paid unless such operator:

- (1) Has been notified that the emergency procedures prescribed in ARTICLE III.10 are in effect.
- (2) Is being held off for investigation.
- (3) Is under penalty suspension.
- (4) Does not hold himself ready for other work which may be assigned by the Dispatcher and which terminates prior to or at the time his regular assignment would have terminated. Any time worked beyond such termination will be compensated at one and one-half times the base hourly rate.

In case of permanent cancellation of a run, such employee(s) shall have equal priority with employees covered by ARTICLE III.21.

M.D.T.A. may cancel some trippers consistent with ridership decreases on the following holidays and days prior to or subsequent to major holidays: Martin Luther King's Birthday, Washington's Birthday, Veteran's Day, Columbus Day, Friday after Thanksgiving, Christmas Eve, December 26th and New Year's Eve. In such an event, affected operators may be reassigned to a tripper on routes where additional service would be beneficial. There may be a thirty (30) minute variation in check-off times on these reassignments; however there will be no loss in pay and pay shall be at the applicable rate.

- (q) **Error in Assignment** - In case of error in assignment, the operator may be held until all work is covered (A.M. operators until A.M. work is covered, and P.M. operators until P.M. work is covered). He will be used only after all extra board operators are assigned work. Work extended beyond his normal relief time will be paid at the applicable rate.

If the dispatcher makes an error in assignment, and the regular operator is not late, M.D.T.A. may provide transportation of the regular operator to his run at the closest relief point or an agreed upon point whereupon the Extra Board Operator is relieved.

The Extra Board Operator will return to the garage and will be guaranteed the compensation of the previous run if the operator reports to the Dispatcher for further assignment.

If the regular driver is late but begins the assignment and an Extra Board man has been assigned by the Dispatcher, then the regular driver will be relieved and the Extra Board man will carry out the assignment. In this instance the regular driver will not be guaranteed compensation for that run but will be paid for work done after reporting to the Dispatcher.

- (r) **Pass-up of Runs** - Any operator who so desires may pass up regular runs at line-up time and choose to work the extra board. Regular runs remaining open after all operators have had a chance to pick will be assigned to operators in reverse seniority order by the Division Superintendents.
- (s) **Open Runs** - The following procedures shall govern the assignment of open runs, non-rotating board slots and combination runs:
 - (1) Whenever these assignments become permanently open between line-ups or any new run is created, it will be offered and may be selected by operators on a system-wide seniority basis. An operator may make only one such change between line-ups.
 - (2) Any operator selecting the extra board may also bid for open runs or runs created. Bids shall be on the basis of seniority.
- (t) **Duty of Operator - Selected Run** - It shall be duty and obligation of any operator after selecting a regular run of his choice to familiarize himself with the route, schedule, transfer arrangements, zone fares or any other special characteristics of that run. An operator's error resulting from lack of such knowledge may be deemed cause for disciplinary action.

- (u) M.D.T.A. will incorporate paid recovery time, in an amount approximately ten percent but not less than eight percent round trip running time, into each run. The Labor Management Committee as provided for in Article III.I of this Agreement will study runs considered to have insufficient recovery time. After runs have been checked, and it is agreed that some adjustment is needed, a period of ten days will be allowed for the schedule to be adjusted and made up. The effective date of the revised schedule will depend upon the type of line-up or procedure necessary to institute the said schedules in accordance with the contract.
- (v) **Distribution of Work Between Operating Divisions** - M.D.T.A. will make a reasonable effort to equitably distribute extra work such as Charter, Park-Ride, and Picked Trippers among the bus operators of each Operating Division.
- (w) The parties recognize that only employees classified as Bus Operators will operate buses in a passenger carrying capacity. This includes special projects and demonstrations which involves passengers. This is not to preclude Instructors and maintenance employees from performing their tasks, which include test demonstration of new equipment and retrofit modification. M.D.T.A. reserves the right to use supervisor personnel for special emergency requests (as determined by the General Superintendent of Transportation) when a bus operator is not available. The Union will be notified of such action as soon as possible.
- (x) **New Operators** - Thirty (30) days prior to a scheduled line-up, part-time operators changed to full-time, or newly hired full-time operators shall be assigned to divisions as needed until the next regular line-up. Written requests from existing employees will be given priority before such assignments are made. These requests will be made through the Union Shop Steward.

ARTICLE VI.3 WORKING PROCEDURES -- OPERATORS

The following working procedures shall apply to operators:

- (a) **Reporting for Work - Operators** - Each operator, both A.M. and P.M. assigned a run or piece of work shall report to the Dispatcher at the place and at the time specified and if bus leaves the garage shall be ready to depart as scheduled.
- (b) **Miss Out** - Any operator failing to make his/her relief or report at the scheduled time and place and failing thereafter to call the Dispatcher immediately or unless otherwise instructed, failing to report in person to the Dispatcher within two (2) hours of his relief or report time shall be deemed to have "missed out" and will be given a written reprimand, however, excessive miss outs may result in more severe disciplinary action.

Provided, however, that the Superintendent of the operator's division may waive the written reprimand if in his judgment the operator's failure resulted from circumstances beyond the control of the operator.

- (c) **Failure to be Relieved** - It shall be the duty of each operator when a relief operator has failed to make a "relief" to immediately report the matter to the Dispatcher. If the relief operator has not checked on, or if the Dispatcher is experiencing manpower problems which may cause a relief to be made late the Dispatcher shall notify the operator who is scheduled to be relieved.

The operator shall then be required to continue the run until relieved, provided, however, that the Dispatcher shall cause such relief to be made within not more than three hours. Failure of any operator to notify the Dispatcher or to continue as required will be considered cause for disciplinary action.

- (d) **Excuse From Work** - The Dispatcher may excuse an operator from his run or report when, in his judgment, it will not adversely affect operations and all pieces of work are covered. The Dispatcher will excuse operators in order of request provided that a request shall not be made later than forty-five (45) minutes prior to the operator's report time. Operators who are excused must be paid holiday leave for such excused time from their holiday bank accrual. Operators who are excused and have no holiday bank accrual will be paid annual leave for such excused time, provided the request for annual leave pay is made to the Dispatcher or his/her Division Superintendent in advance. Operators requesting annual leave pay for such excused time must sign the required request form, preferably at the time the request is made. If this is not possible, the form must be signed prior to the end of the affected pay period. Once the operator has called in and is not excused, paid leave will not be granted. In any case, an operator may be excused for an emergency situation at the discretion of the Dispatcher. Emergency situations may be appealed to the Division Superintendent.
- (e) **Inability to Work - Illness** - It shall be the duty of any operator who because of illness is unable to make his "report" or "relief" to so inform the Dispatcher not later than forty (45) minutes prior to his report or relief time.
- (f) **Late Report and Unexcused Late Relief** - Any operator failing to make his report or relief on time and who reports in person to the Dispatcher not later than two hours after his scheduled "report" shall not be deemed to have "missed out" but will be placed at the bottom of the Extra Board" and shall be required to take any "piece of work" assigned by the Dispatcher. Operators making such penalty report will be paid only for work actually performed, provided, however, that should the Dispatcher place the operator on standby before work is assigned, the operator will be compensated at the applicable rate for all standby time. At such time that FLSA's application to transit is modified or eliminated, those collective bargaining agreement provisions reflecting changes indicated by the current interpretation of FLSA will be reopened for negotiation.
- (g) **Absence Without Leave (AWOL)** - Any operator who failed to make his schedule report the day following a "miss out" suspension, or is otherwise absent without leave will be subject to disciplinary action.
- (h) **Return to Work After Illness** - All Operators before returning to work following an illness, shall report not later than 3:00 P.M. on the day preceding the day they are able to return. Operators desiring to work off the A.M. extra list on a day following a sick day may do so if they call in before 12 midnight and vacancies exist. However, they cannot be paid sick pay and work.

In any case, the Division Superintendent may require a doctor's certificate when in his judgment the operator appears unfit for return or is an excessive absentee.

- (i) **Reporting During Recuperation from Accident or Illness** - It shall be the duty of all operators who are recuperating from accidents or illness for any cause and who are not working, to keep their Division Superintendent informed as to the reason for their initial absence on their first day off and the probable date of return to work. In the case of long term absence a weekly follow-up report is required. Should there be any change in the estimated date for return to duty, the operator shall immediately inform the Division Superintendent.

These obligations may be performed on behalf of the operator if he is unable to do so himself, however, the operator shall be bound by the information given on his behalf.

In the event the doctor treating an operator recuperating from an accident or illness informs the operator that he is qualified for "light duty," the operator shall immediately inform his Division Superintendent.

The following working procedures shall apply to operators working the extra board:

When an Extra Board operator is assigned a regular run of eight hours or more he shall be considered a regular operator for the duration of that assignment. All rules applicable to regular operators set forth in ARTICLE VI.3 hereof shall be applicable to extra board operators, except when in conflict with those rules contained in this Article.

- (a) **Line-ups** - Those operators not picking a regular run or combination at line-up shall be the extra board operators. The extra board shall be divided into two categories: the Time Slot Extra Board and the A.M. Report Extra Board. Those operators choosing to work the extra board shall have the option of picking the Time Slot Board (one report), or the A.M. Report Board (two reports). All picks will be on a seniority basis.
- (b) **A.M. Report Extra Board** - The A.M. Report Board operators will be required to make two reports each operating day, at the A.M. time selected at line-up and at the P.M. time and place designated by the dispatcher. Seven A.M. shall be the latest report time for the A.M. Report Extra Board. The P.M. reports for the same day shall be posted at 8:30 A.M. that day. The A.M. reports for the next day shall be posted at 5:00 P.M. It shall be the duty of all A.M. Report Extra Board operators to check each posting of their board for the next report.
- (c) **Extra Board Line-ups - Both Boards** - Extra board line-ups shall be held in conjunction with the line-up for regular runs. All additional line-ups may be held as deemed necessary by M.D.T.A. At each such line-up extra board operators will be allowed to select, by seniority numbers, their days off and board of their choice. After consulting with T.W.U., M.D.T.A. may restrict additional line-ups to a specific division, specific board, or a specific board and division.

- (d) **Transfer Between Boards** - Any transfer between boards shall be on a seniority basis only. After the opportunity has passed all operators with no takers, then the transfer will be made by the Dispatcher in reverse seniority order. Notice will be posted in advance of any transfers which are to take place not later than Wednesday noon prior to the change on Sunday.
- (e) **Transfer Between Boards - Emergency** - The Dispatcher may transfer operators from one division's board to another division's board for forty-eight (48) hours in an emergency, according to seniority number. After the forty-eight (48) hour period, according to seniority number, operators will return to their respective board.
- (f) **Reporting for Work - Extra Board Operators** - Each operator assigned to the extra board shall report to the Dispatcher at the time of his assignment specified on the daily posted list and shall be ready to depart as scheduled.
- (g) **Reliefs - Emergency** - Any emergency reliefs will fall to the lot of the first available extra board operator. Regular operators shall get second preference at applicable rate of pay.
- (h) **Extra Board Operators - Waiting Requirement** - Each A.M. Report Board and Time Slot Board Operator, whether or not he/she is assigned a "piece of work," shall be paid regular scale commencing with the time of his/her report.
- (i) **Extra Board Assignment** - A.M. Report Board operators will pick report times. (Example: 3:55, 4:00, 4:01, 4:02, etc.). Assignments: All "pieces of work" coming open by 3:00 P.M. the day prior to work day will be preassigned on a time out basis to A.M. Report Board Operators. Such preassignments shall be restricted to work whose report time is prior to next picked report and shall not exceed ten (10) platform hours in a spread time of fourteen (14) hours. A.M. Report Extra Board Operators making a second report will be assigned work on a time-in basis, and will be scheduled in the garage within fourteen (14) hours of their picked report. Spread time in excess of twelve (12) hours shall be paid at one and one-half times the hourly rate (Article VII.8 - Item 5). Any Extra Board Operator who is late will be assigned work after all other operators on the extra board have been assigned on the date he is late.
- (j) **Extra Board Operators - Days Off** - Each extra board operator shall be entitled to receive two consecutive days off in each week.
- (k) **Extra Board Operator - Duty on Completion of Regular Runs** - There shall be no second report for any extra board operator if he/she has worked a total of eight (8) hours. Runs of less than eight (8) platform hours will not be preassigned.
- (l) **Assignment of Trippers and Open Pieces of Work** - Trippers or open pieces of work shall fall to the lot of extra board operators not already assigned work in order of position on that board. Assignments shall be made in accordance with the following procedures, except that an open piece of work of three hours or less may be assigned first to an extra list operator:
 - (1) A.M. trippers and open pieces of work will be assigned at the A.M. report time.

- (2) P.M. trippers or open pieces of work shall be assigned to A.M. Report Board Operators by 9:00 A.M. Any run of eight hours or more for which a Time Slot board operator is not available and which would require an A.M. Report Board Operator to arrive in the garage beyond fourteen (14) hours of his picked report, will be assigned to an operator on the extra list when present. Only after these procedures are followed, will it be assigned to an A.M. Report Board Operator. If so assigned, he will be required to finish the run. These assignments will be made on a time-out basis according to position on the A.M. Report Board. Any operator working such an assignment may request that his/her report for the next day be changed to ten (10) hours from time in garage.
- (3) Trippers and open pieces of work remaining uncovered will fall to the unassigned Time Slot extra board operators with P.M. time slot after the A.M. Report Board has been exhausted.
- (4) Trippers or open pieces of work will be assigned fifteen (15) minutes before they are scheduled to leave the garage.
- (m) Extra Board -Time Slot - A board apportioned at no less than fifteen (15) percent of the system-wide straight runs will be posted at line-up time for selection. Operators selecting this board will have one report. Days off will be picked at line-up time.

M.D.T.A. will make a reasonable effort to equitably distribute work among the operators of each Operating Division.

All picked P.M. extra board assignments shall be Time Slot. There shall be no diminution in the average number of A.M. time slots as a result of all P.M. assignments being time slots.

Time Slot extra board operators will have priority on the following work:

Regular runs or pieces of work consisting of at least eight (8) platform hours.

Other work assignments requiring one report. This may consist of one or more pieces of work or assignments, including charters, without a break in pay, provided it does not exceed ten (10) hours.

Split runs which require the operator to return to the garage and either take out another bus or report to the Dispatcher, or any pull-in or pull-out incorporated in a split shall not be assigned the time slot extra board.

Time slot extra board operators will be assigned in the following manner:

Reports: Operators will pick report periods spanning thirty (30) minutes: Example: 4:00 thru 4:29, 4:30 thru 4:59, etc.).

Assignments: All "pieces of work" coming open by 10:30 A.M. the day prior to the work day will be assigned to Time Slot operators within their respective time slots. These operators will report at the time stated (within their slot) for the assigned work.

Unassigned Operators: Operators not assigned work on the day prior to the work day will report at a time, within their half-hour time slot, designated by the Dispatcher. These operators will be on paid standby and assigned work in the order in which they report. A Time Slot extra board operator may refuse an assignment which results in a spread time of more than 12 hours. Such operator may be given another assignment within the spread.

Duration: Operators selecting the Time Slot board will do so for the duration of the line-up. These operators may, however, pick off of the board to take runs or time slots which become permanently open between line-ups.

Adjustment Line-ups: After notifying and consulting with the Union, M.D.T.A. may have a line-up of Time Slot board operators as often as deemed necessary to adjust time slots to fit work assignments. These line-ups will become effective at the beginning of a work week.

Late Reports: Should an operator on the Time Slot board make a late report and reports to the Dispatcher within two hours he may be placed on the bottom of the report extra board and shall be required to take any piece of work assigned by the Dispatcher. This may include two reports. His guarantee for the week will be adjusted by 20% for each day of the week he is late. He shall be paid above the reduced guarantee for any work performed on the day he is late.

(n) **Hold Down** - Any regular run or combination which is listed on the current line-up may be available on a seniority basis as a hold down provided it can be determined that the regular operator will be absent for a minimum of one (1) calendar week. All operators working such assignments will be considered regular operators for the duration of the hold down, subject to the days off, work hours, and work rules applicable to that run. The vacation hold downs will be posted every three (3) weeks on Monday of the week preceding the vacation cycle. Hold downs for other types of absences will be posted each Monday. Bidding for all hold downs will close at 5:00 p.m. on Thursday following the posting period. Successful bidders shall be notified by posting by the Dispatcher after noon on Friday. The effective date of the hold down will be the following Sunday. Successful bidders shall be notified by the Dispatcher after noon on Friday.

(1) These hold down assignments will be effective for the duration of the vacation or absence and will be effective in full work week increments only. Odd days of less than one (1) week will revert to the extra board.

(2) Operators picking hold downs shall not have scheduled leave which will conflict with the hold down. In such cases, these operators shall be ineligible to pick the hold down.

(3) If an operator is late or misses the hold down more than three (3) occasions, such operator shall lose the hold down and be prohibited from bidding on future hold downs for the duration of the line up.

(4) A.M. work will be picked by a.m. extra board operators and p.m. work will be picked by p.m. extra board operators.

The hold down provision shall apply to Report Board Extra Board Operators and Time Slot Extra Board Operators (Article VI.4 (m) (i)).

- (o) Extra Board - Holidays - Extra board operators who are required to work on a holiday will have the option of banking the holiday time earned in accordance with ARTICLE VII.10, or being paid. - (i) Any regular operator desiring to become a part-time operator may be transferred to such status to attend an accredited school or college on a full-time basis provided the course work is

transportation related and would enhance his/her career opportunities at M.D.T.A.; and providing such operator has completed at least one year as a regular operator immediately preceding such request. Such transfers will be subjected to the following conditions:

- (1) Such operators will be paid their normal hourly rate per the current Agreement for operators but will not have any guarantee.

Instead of contracting out such routes and/or service, the County will only utilize TWU bargaining unit employees to operate and maintain these identified routes and service. These Paratransit Driver Attendants shall only operate minibuses or smaller equipment on such routes or service. A minibus is defined as a vehicle which is 30 feet in length or less and/or is designed to carry 29 seated passengers or less.

No Paratransit Driver Attendant shall at any time or under any circumstances operate or work on any vehicle which is more than 30 feet in length and/or is designed to carry more than 29 seated passengers.

The Paratransit Driver Attendants' working conditions shall be in accord with the collective bargaining agreement at I, II, III, and VII.

The job description for the Paratransit Driver Attendant will be revised to incorporate fixed and semi-fixed route work at the current rate of pay for the classification. TWU, as the exclusive bargaining agent, recognizes that the revised job duties included in the Paratransit Driver Attendant classification require incumbents to perform duties similar to those performed by incumbents in the Bus Operator classification. TWU further agrees that the specified rate of pay for the Paratransit Driver Attendant classification is not subject to review or appeal except through the collective bargaining process.

Should this article be canceled as outlined below, the job description for the Paratransit Driver Attendant shall revert to the October 1993 description.

Nothing in this article shall in any way affect, modify or change the parties' collective bargaining agreement or any I3(c) agreements or certifications.

An employee (excluding Bus Operators and Train Operators) who reports late for duty shall be paid only for time worked. An employee who does not report within two hours shall be considered on unauthorized leave. The following provisions shall apply to Rail employees who elect to return to their former bus classifications:

MAINTENANCE EMPLOYEES

TIME CARDS

Each employee must punch his/her own time card at the start of his/her work day, at the end of his shift, and on every occasion the employee leaves and returns to MDTA property (except on official MDTA business). Also, at the beginning of each weekly time card, each employee must sign in the space provided for his/her signature. An employee who punches a time card other than his/her own is subject to disciplinary action up to and including dismissal. An employee who requests another employee to punch the first employee's time card shall be, upon proof, subject to disciplinary action up to and including dismissal. Daily time cards may be substituted for weekly time cards at the discretion of the MDTA.

Track and Guideway maintenance employees and Systems maintenance employees may call in rather than punch time cards at the discretion of their appropriate supervisors.

LUNCH PERIOD

It is understood and agreed that a paid thirty (30) minutes lunch period shall be included within the eight (8) hour regular work day of rail maintenance employees. The procedure covering the lunch period may vary within rail maintenance classifications. MDTA shall issue an order establishing the procedure. There is no preparatory time for lunch provided for employment, therefore any preparation for lunch made by employees shall be made after the lunch period begins.

TOOLS, EQUIPMENT, AND PARTS

MDTA will provide all necessary tools, equipment and parts. Each shop employee shall be responsible for the proper care, use and/or maintenance of all tools, equipment or parts, which are issued to him and are the property of MDTA. Loss, damage or malfunctions of tools and equipment shall be reported immediately. No employee shall under any circumstances remove or borrow MDTA tools, equipment or parts for his/her personal convenience or business. All malfunctions shall be reported in writing on the forms provided.

A secured space will be provided by MDTA for storage of tools and equipment assigned to employees on vacation or extended leave periods. Management also maintains the right to hold tool box, locker and other inspections on MDTA property with a union representative present in order to insure the security and safety of tools and equipment belonging to both the employee and MDTA. No unreasonable or arbitrary inspection will be made.

UNIFORMS AND SAFETY SHOES

The employee's regulation uniform furnished by the County shall be worn and changed in the manner prescribed by MDTA regulations. Employees shall at all times while on duty wear the prescribed uniform. The uniform shall be kept in a reasonably neat and clean condition, MDTA shall provide one pair of safety shoes per year and a jacket for cold weather once every two years to employees who work in areas deemed to require same. Employees classified as Guideway Inspection Specialists (8054) and Track Repairer (8064) shall be provided with one pair of safety shoes every four months or at least three times per calendar year.

WORK ASSIGNMENTS – SENIORITY ORDER

All such time that maintenance line-ups begin, seniority for picking work shall be determined as follows:

- (a) For employees hired into rail classifications from inception up to and including two years after South line revenue service begins, seniority order shall be determined solely upon length of continuous employment with MDTA in any TWU bargaining unit job classification.
- (b) For employees hired into rail classifications after two years South line service begins, seniority order shall be determined solely upon length of continuous employment with MDTA within the particular classification.

VACATION SELECTION

Vacation schedules shall be selected by seniority in December for the following calendar year. Seniority for picking vacations shall be as established in "Work Assignment Seniority Order" above. All vacations are subject to approval by MDTA.

MAINTENANCE EMPLOYEES – LINE-UPS

Line-ups shall commence not later than one year after South line revenue service begins. Until such time, management shall assign work. After such time, there shall be at least two line-ups annually, one in December and one in June, with such additional line-ups as MDTA deems necessary to meet current work requirements. If at anytime after twenty-one (21) calendar days an employee's work is judged unsatisfactory by MDTA, such employee may be reassigned within classification and shift. Before any line-up shall be posted, the Union shall be granted the opportunity to review same up to ten (10) days prior to posting and to make pertinent comments and suggestions. After the posting of the line-up for fifteen (15) days, the picking will then be started by classification seniority in groups. A maximum of three (3) days shall be allowed for picking. Picking shall be finished at least three (3) weeks prior to effective date of line-up. The effective date shall be included on the posted line-up. The new line-up will go into effect on that date. In the event there is disagreement between the Union and management concerning all, or any part of said line-up, the dispute shall not prevent the line-up from becoming effective as scheduled but shall be treated as a grievance and settled accordingly.

MDTA shall post lists of all available picks as to facility location, working hours and days off, except that "Relief Assignments" may be posted on line-ups for all shop and garage classifications. The number will be limited to a maximum of 10% of all positions for the shop and garage combined. Employees shall be notified as to the time and place they are scheduled and expected to appear. However, if a maintenance employee cannot attend, he/she will be expected to leave with his/her supervisor a list of at least five (5) choices in order of preference. Any maintenance employee who fails to provide a list of choices will be assigned duty as similar as possible to the one chosen at the last previous line-up. If an employee cannot pick in person because of an emergency, such employee shall be allowed to advise the shop office of his/her preferences by telephone.

Employees who are absent on the day of a line-up is posted and have not returned by the third day after posting, shall be sent a notice of the date picking of the line-up will begin. This will be done by certified mail.

Employees in a non-pay status or indefinite absence or leave at the time of a line-up will not be allowed to pick.

MDTA shall be able to post for bidding a maximum of 50% of all positions as four (4) day work weeks at 10 hours per day. Employees assigned to this schedule will receive at least two (2) consecutive days off.

TRANSFER BETWEEN LOCATIONS

At such time that line-ups are conducted, Maintenance employees may be transferred from one facility to another between line-ups and thereafter shall work on a regular basis at the new facility. Volunteers will first be requested from employees in the classification involved. Existing vacancies, after using volunteers, will be filled by assigned employees in the classification in reverse seniority order. First preference for open jobs between line-ups will be given to the most senior employee within the classification, who requests the opening. A shop and garage employee may make only one such change between line-ups.

MAINTENANCE EMPLOYEES - BUS RADIOS AND TRAINING MANUAL

The Operating Instructions for the Transit Mobile Radio System and the procedures contained in the Rail Training Manual and Metromover System Operation Manual are a part of the rules and regulations of MDTA. Any employees violating these rules or other misuse of the radio system will be subject to disciplinary action.

TRANSPORTATION EMPLOYEES

OPERATOR'S RESPONSIBILITY

It shall be the responsibility of the Operator to devote full attention to the safe, smooth and efficient operation of equipment and to avoid discomfort or inconvenience to passengers. Subject to orders of persons of higher authority, the Operator has charge of the train and shall be responsible for:

- (a) Observation of and adherence to speed commands, headways, schedules and signals.
- (b) Knowledge of and adherence to all MDTA operating procedures and safety regulations, including pre departure testing procedures, and overall yard responsibilities and procedures.
- (c) The safety of boarding and alighting passengers.
- (d) Passenger assistance and the proper use of fare collection equipment.
- (e) The adjustment of lighting for the comfort and convenience of passengers.
- (f) Proper display of all required signs and identifications.
- (g) Distribution of schedules, route finders and other transit informational publications on trains and in stations as directed by MDTA.
- (h) Performance of such other duties as may from time to time be prescribed by MDTA.

An Operator may grieve any unreasonable order by a higher authority under these provisions.

LINE-UPS AND RUNS

Line-ups and runs shall be governed in accordance with the following procedures:

- (a) MDTA will provide for at least three (3) line-ups each year, November, March and July. These line-ups shall be timed to coincide with Metrobus' Transportation line-ups. Additional line-ups may be scheduled as necessitated by service adjustments and/or other operational requirements. These other line-ups may be independent of Metrobus line-ups.

The November pick shall determine vacation schedules as well as work assignments. If the July line-up is a re-pick of an existing line-up, the seven (7) calendar day Union review and posting will run concurrently and the picking will be done during a seven (7) calendar day period.

- (b) **Transfer between locations** - At such time that line-ups are in effect, Operators may be transferred from one reporting facility to another between line-ups and thereafter shall work on a regular basis at the new facility. Volunteers will first be requested. Existing vacancies, after using volunteers, will be filled by assigning extra board attendants in reverse seniority order. Employees being permanently transferred will be given forty-eight (48) hours prior notice.

Temporary transfers of extra board operators can be implemented by MDTA between facilities in one week increments.

Operators may volunteer to be assigned work at any location on a daily basis if there is a shortage of Operators at another location.

If voluntary assignment to another location is made after an employee reports for work at his/her normal location, reasonable travel time will be paid if applicable.

Transfer Work - Operators shall be required to work any work that is normally assigned to another facility subject to the following procedures: Volunteers will be requested first from among extra board and extra list operators. Failing this, reverse seniority assignments will be made from the extra board for that operating day.

- (c) **Unfilled Work Assignments** - Unfilled work assignments or emergency reliefs will be assigned first to any available extra board operator, next to any extra list operator, then to any available operator. Part-time operators will not be used unless all regular operators have been given an opportunity to operate said service.
- (d) **Seniority Roster** - At such time that line-ups are effective, seniority for picking work shall be determined as follows:
- (1) For employees hired as Train Operators from inception up to and including two years after South line revenue service begins, seniority order shall be determined solely upon length of continuous employment with MDTA in any TWU bargaining unit job classification.
 - (2) For employees hired into rail classifications after two years of South line revenue service begins, seniority order shall be determined solely upon length of continuous employment with MDTA in this classification.

A Roster shall be kept which shall list the name of each Operator in order of his/her date of employment as established by paragraphs 1 or 2 above and his/her line-up number assigned in accordance with his/her position on the roster. The number so assigned shall be used to determine the order in which he/she shall be accorded an opportunity to select the assignment of his/her choice.

- (e) **Operators Leaving Train** - Operators must notify control and get instructions prior to leaving the train for restroom or other purposes.
- (f) **Regular Assignments** - A regular assignment shall be defined as regular work chosen at line-up or assigned as provided in these rules. Regular assignment shall include straight assignments, split assignments and dual assignments in stations or yards.
- (g) A split assignment consists of two parts and each part may be on a different assignment. On split assignments, the intervening time in excess of ninety (90) minutes shall be paid at straight time. The minimum unpaid intervening time will be thirty (30) minutes.
- (h) A dual assignment consists of two parts; 1) The actual operation of the train, and 2) Station platform or yard duties as described above. A dual assignment may be split or straight.

Combination assignments - It is the express intent of the parties to develop additional work schedule procedures which will result in pre-assigning as much work as practical on a daily or weekly basis.

MDTA may develop, in addition to the regular assignments heretofore described, a group of Combination Assignments. These assignments shall be scheduled and paid as follows:

Assignments shall include 8 ½ hours within a total elapsed time of 12 hours.

Work beyond the twelfth hour will be at overtime in all cases.

When work time within the twelve hour spread exceeds eight hours, daily overtime guarantee applies. Pay for combination assignments will be a minimum of 45 hours of pay at straight time rate. For example, the pay for a week could be made up of the following:

(1) 42.50 hours of work time
 2.50 hours of overtime premium pay
 45.00 hours at straight time rate

(2) 41.00 hours of work time
 1.00 hour of overtime premium pay
 3.00 hours of paid unassigned time
 45.00

Should an Operator with paid unassigned time in his/her daily work schedule desire to work during the intervening period of his/her combination assignment, overtime or added pay will begin after

paid unassigned time for that day is made up by work time. Any work performed at either end of the combination assignment will come under the daily overtime provisions of this Agreement.

If an Operator with a combination assignment which has paid unassigned time, works an assignment which is authorized by the Supervisor during his intervening period, payment for such work will be above his/her assignment pay at the applicable rate of pay. If an Operator is late returning to the yard at the end of his/her combination, pay shall be above the run pay at the applicable rate of pay.

Combination Assignments may include assignments in stations or yards in addition to train operation on the main line.

- (g) **Assignment Cancellation** - Any Operator holding a regular assignment who reports as scheduled in proper attire and condition to work but whose work has been canceled shall be paid no less than full pay for the assignment and shall hold him/herself available for other assignments during the time for which he/she is paid unless such Operator:
- (1) Has been notified that the emergency procedures prescribed in Article III.10 are in effect.
 - (2) Is being held off for investigation.
 - (3) Is under penalty suspension.
 - (4) Does not hold him/herself ready for other work which may be assigned by the Supervisor and which prior to or at the time his/her regular assignment would have terminated.

Any time worked beyond such termination will be compensated at one and one-half times the base hourly rate. In case of permanent cancellation of a run, such employee(s) shall have equal priority with employees covered by Article III.2.

In the event that either side experiences problems in the application of the provisions of "Line-ups and Runs", contained herein, the issue shall be an item for the Labor Management Committee as provided in Article III.I. If there is mutual agreement by MDTA and TWU that the provisions of the Line-ups and Runs are not working, a joint MDTA/TWU Committee will be established to resolve the issue.

- (h) The parties recognize that only employees classified as Train Operators will operate trains in a passenger carrying capacity, except in emergencies. Maintenance employees will not operate trains beyond the house. Train Operators will operate all trains in the yard(s) and on the main lines. This includes special projects and demonstrations which involve passengers. This is not to preclude Supervisors, Instructors and Maintenance employees from performing their tasks, which include test demonstration of new equipment and retrofit modifications. MDTA reserves the right to use supervisory personnel for special emergency requests (as determined by the General Superintendent of Transportation) when Train Operators are not available. The Union will be notified of such action as soon as possible.

UNIFORMS

Wearing of cap and badge, while on duty, is optional with the operator. If a cap is worn it shall be the regulation uniform cap. Train Operators may wear the badge on their uniform shirt if the cap is not worn.

WORKING PROCEDURES - OPERATORS

The following working procedures shall apply to Operators:

- (a) **Reporting for Work - Operators** - Each Operator, both a.m. and p.m. given an assignment shall report to Central Control, the terminal supervisor or to the yard dispatcher as specified and at the time specified, prepared to commence his/her assignment as scheduled.
- (b) **Transit Radio and Operations Procedures** - The Operating Instructions for the Transit Mobile Radio System and the Metrorail Operations Rules and Procedures Manual are a part of the rules and regulations of MDTA. Any employee violating these rules or other misuse of the radio system will be subject to disciplinary action.

WORKING PROCEDURES - EXTRA BOARD OPERATORS

The following procedures shall apply to Operators working the Extra Board.

When an Extra Board Operator is given a regular assignment of eight hours or more, he/she shall be considered a regular operator for the duration of that assignment. All rules applicable to Regular Operators set forth herein shall be applicable to Extra Board Operators, except when in conflict with those rules contained in this Article.

- (a) **Line-ups** - Those Operators not picking a regular assignment or combination at line-up shall be the Extra Board Operator. Those operators choosing to work the Extra Board will pick report assignments and days off on a seniority basis.
- (b) **Reports** - Extra Board Operators may require to make two reports each operating day at the time selected at line-up for the first report, and at the time and place designated by the Supervisor for the second report. The second report may be at a different location. The p.m. reports for the same day shall be posted at 8:30 a.m. that day. The a.m. reports for the next day shall be posted at 5:00 p.m. It shall be the duty of all Extra Board Operators to check each posting of the board for his/her next report. It is understood by MDTA/TWU that concurrent with opening of North line a one (1) report Extra Board will be established in conjunction with the present two (2) report Extra Board.
- (c) **Extra Board Line-ups** - Extra Board Line-ups shall be held in conjunction with the line-up for regular assignments. Additional line-ups may be held as deemed necessary by MDTA. At each such line-up Extra Board Operators will be allowed to select, by seniority, their first report time and days off.
- (d) **Reporting for Work - Extra Board Operators** - Each Operator assigned to the Extra Board shall report to the Supervisor at the time of his/her assignment specified on the daily posted list and shall be ready to depart as scheduled.

- (e) **Reliefs - Emergency** - Any emergency reliefs will fall to the lot of the first available Extra Board Operator. Regular Operators shall get second preference at applicable rate of pay.
- (f) **Extra Board Operators - Waiting Requirement** - Each Extra Board Operator, whether or not he/she is assigned a "piece of work," shall be paid regular scale commencing with the time of his/her report.
- (g) **Extra Board Assignments** - Extra Board Operators will pick a.m. or p.m. report times (Example: 3:55, 4:00, 4:01, 4:02, etc.) to cover daily span of operation. Assignments: All "pieces of work" coming open by 3:00 P.M. the day prior to work day will be preassigned on a time-in basis to Extra Board Operators with a.m. reports. Such preassignments shall be restricted to work with report times prior to the next picked report and shall not exceed ten (10) platform hours in a spread time of fourteen (14) hours. Operators making preassigned second reports, and Operators whose picked report time is p.m., shall be preassigned on a time-in basis and will be scheduled in the yard within fourteen (14) hours of their picked report.

Spread time in excess of twelve (12) hours shall be paid at one and one-half times the hourly rate (Article VII.8 - Item 5). Any operator who is late will be assigned work after all other operators available on the Extra Board have been assigned on the date he/she is late.

- (h) **Assignment of Open Pieces of Work** - Open pieces of work shall fall to the lot of Extra Board Operators not already assigned work in order of position on the board. Assignments shall be made in accordance with the following procedures:
 - (1) Open pieces of work will be assigned at the report time to Operators in time-out order from top of a.m. Extra Board. Any piece of work eight hours or more that would require an Extra Board Operator to arrive in the yard beyond fourteen hours of his/her picked report, will be assigned to an Operator on the extra list when present. Only after these procedures are followed, will it be assigned to an Extra Board Operator. If so assigned, he/she will be required to finish the assignment. Any Operator working such an assignment may request that his/her report for the next day be changed to ten (10) hours from time in yard.
 - (2) P.M. Open Pieces of Work not preassigned to p.m. Extra Board Operators with eight (8) hours or more will be assigned at the report time to Operators in time-out order from the top of the p.m. Extra Board.
 - (3) Open pieces of work remaining uncovered will fall to the unassigned p.m. Extra Board in time-out order, after the a.m. Extra Board Operators making second reports (within fourteen (14) hours of first report) has been exhausted.
- (i) **Extra Board Operators - Days Off** - Each Extra Board Operator shall be entitled to receive two consecutive days off in each week.
- (j) **Extra Board Operators - Duty on Completion of Regular Assignment** - There shall be no second report required of any Extra Board Operator if he/she has worked a total of eight (8) hours. The

Operator may make a second report at his/her option, provided the Supervisor needs manpower. Assignment of less than eight (8) platform hours will not be preassigned.

- (k) Extra Board - Holidays - Extra Board Operators who are required to work on a holiday will have the option of banking the holiday time earned in accordance with Article VII, 10, or being paid. MDTA will provide two (2) days advance notice to as many Extra Board Operators as possible on all holidays on which a Sunday schedule is run, whether or not they will be required to work or will be off on such holidays. A procedure will be established by an Administrative Order.
- (l) Hold Down - Any regular run or combinations, which is listed on the current line-up may be available on a seniority basis as a hold down provided it can be determined that the regular operator will be absent for a minimum of one (1) calendar week. All operators working such assignments will be considered regular operators for the duration of the hold down, subject to the days off, work hours, and work rules applicable to that run. The vacation hold downs will be posted every three (3) weeks on Monday of the week preceding the vacation cycle. Hold downs for other types of absences will be posted each Monday. Bidding for all hold downs will close at 5:00 p.m. on Thursday following the posting period. Successful bidders shall be notified by posting by the Dispatcher after noon on Friday. The effective date of the hold down will be the following Sunday. Successful bidders shall be notified by the Dispatcher after noon on Friday.
 - (1) These hold down assignments will be effective for the duration of the vacation or absence and will be effective in full work week increments only. Odd days of less than one (1) week will revert to the extra board.
 - (2) Operators picking hold downs shall not have scheduled leave which will conflict with the hold down. In such cases, these operators shall be ineligible to pick the hold down.
 - (3) If an operator is late or misses the hold down more than three (3) occasions, such operator shall lose the hold down and be prohibited from bidding on future hold downs for the duration of the line up.

The hold down provision shall apply to Report Board Extra Board Operators and Time Slot Extra Board Operators (Working Procedures - Extra Board Operators (b) and (g).

In the event that either side experiences problems in the application of the provisions of "Working Procedures - Extra Board Operators", contained herein, the issue shall be an item for the Labor Management Committee as provided in Article III.1. If there is mutual agreement by MDTA and TWU that the provisions of "Working Procedures - Extra Board Operators" are not working, a joint MDTA/TWU Committee will be established to resolve the issue.
